*“I can wholeheartedly recommend G7 Systems, LLC to anyone considering building a data warehousing or business intelligence solution.”*

*Malka Treuhaft, Vice President  
Corporate Financial Systems*

“G7 Systems has helped MetLife implement strategic solutions ranging from gigabytes to multi-terabytes in size, servicing up to 10,000 end users in locations all across the country. G7 Systems personnel can be counted on to provide strategic advice based on their wealth of data warehousing and Business Intelligence experience.”

“The G7 organization has had the depth to implement solutions in every technology area that we asked them to participate.”

*“I would recommend G7 to anyone considering any aspect of information warehouse planning, design, development and implementation.”*

*Raymond R. Ziegler,  
Division Information Systems Officer*

“G7 provided a very strong level of highly technical services. Their perspectives, direction setting, advice/counsel and ‘hands-on’ experience were on target, extremely high quality and very helpful.”

*“G7’s experience and technical skills were just what we needed to make our information warehouse project a success..”*

*Doug P. Cormany,  
Vice President & Chief Information Officer*

“... G7 ensured not only the project’s success through iterative delivery, but went the extra mile, by ensuring that my staff were fully trained to operate and enhance the information warehouse environment.”

*“I highly recommend G7 Systems to any organization seeking to deliver business value through Information Technology.”*

*Richard Connell,  
Executive Vice President*

“They worked hand in hand with our Business and Information Technology personnel to create a Proof Of Concept, which demonstrated the value we could obtain from an information warehouse. Containing 24 months of Selective production data and leveraging SQL Server and COGNOS, G7 delivered over our Intranet, *in less than 3 months*, a set of production data that is difficult to obtain today.”

**The Hartford  
Steam Boiler**

*“I would recommend G7 to companies seeking a cost-effective, responsive and very capable team of technical information technology experts to help solve their business needs.”*

*Neil Shah, Vice President*

“G7 personnel effectively accomplished the majority of database, front-end, telephony and DSS design and development demonstrating their technical prowess. ...G7’s flexible approach and range of technical expertise easily accommodated ... unforeseen changes.”
